A Note concerning your Lap Times

Thank you for attending the club's inaugural Haunted Hills Special Stage and helping to make it a safe and enjoyable day.

Conditions at Haunted Hills tested all competitors. Documentation and Scrutiny were conducted in the wet as were the first two runs. The rain stopped for the last time somewhere around 1.00 pm by which time competitors had completed about four runs. Conditions improved over the balance of the day and we even had some sunshine later in the afternoon whilst running on all but a completely dry track.

As it transpired the conditions suited brilliantly for the club's first event at the circuit. The initial wet conditions ensured that Competitors were reasonably cautious as they learned the circuit and became accustomed to some of its foibles allowing them to proceed more quickly as conditions and confidence grew. We trust you enjoyed your experience at Haunted Hills and achieved your objectives for the day.

The timing system for this event was an electronic TAG Hueur laser-beam system owned and operated by the Timing Team from the Gippsland Car Club. The timing system although computer based, requires the timekeeping crew to identify each car by its pre-assigned club competition number affixed to the vehicle. The club's competition number system you were provided with on the day ensures numbers are consistently presented and easy to interpret.

According to the timing system there were 314 timed laps recorded on the day. **Incidentally, if you forgot to return your competition number after the event, we would be very appreciative if you returned it by mail.**

A copy of this booklet, as well as others containing the results from similar events the Club has run since 1995, can be downloaded from the "Quick Access" page on the Club's website at www.maserati.org.au. Some members find this of use when comparing performances over time.

We trust you had a great day.
