## A Note concerning your Lap Times

Thank you for attending the club's Annual Spring Track Day and helping to make it a safe and enjoyable day. Although showers were anticipated and the morning was overcast, rain never eventuated. Indeed by early afternoon it became quite warm, the temperature being exacerbated by a howling North wind blowing directly behind on the front straight pushing cars into Turn 1 and holding up progress on the back straight. We had no incidents on the day, but quite a few had mechanical dramas. Other than that, for most it was a great day. We trust you had achieved your objectives for the day.

The Club uses a computer based timing system to record the times of drivers at its track days. For this event Greg Aimers was as usual Chief Timekeeper. Our thanks to Greg and in particular to Jason Carrington who provided some welcome support to Greg. Our thanks for the great job.

The club timing system although computer based, requires timing to identify each car by its pre-assigned club competition number and then enter that number to match the specific time we have recorded. Errors, where they occur, usually relate to the *visibility* of the car number. It is for this reason the Club introduced in 1997, the competition number system you were provided with on the day. The system ensures numbers are consistently presented and easy to interpret. For this to work the timing crew must be able to identify the number of a given vehicle as it crosses (at high speed) in front of them at the timing tower. Traffic, may sometimes obscure a vehicle. Not helping the situation is poor placement of the number on the car. Combinations of these factors can lead to:

- a vehicle being missed on one lap, but being picked up on another lap. This may lead to two laps being reported as if it were one lap.
- a vehicle whose number is obscured may be mistaken for another similar vehicle on the track at the same time. Where this is identified we discard the inappropriate time and record 'nt' or not timed in the times attached.

As in all such systems some error is inevitable. However an inspection of the results shows that of the 1209 laps recorded, there were few, if any, errors. Some laps were not recorded in the Morning session. Drivers sharing a vehicle should be aware, as pointed out in the Supplementary Regulations, times are attributed to the club number displayed on the vehicle. If you failed to ensure your number was on the vehicle during your session, then your times will be attributed to the other driver sharing the car. **Incidentally, if you forgot to return your number after the event, we would be very appreciative if you returned it by mail.**

A copy of this booklet, as well as others containing the results from similar events the Club has run since 1995, can be downloaded from the "Quick Access" page on the Club's website at [www.maserati.org.au](http://www.maserati.org.au). Some members find this of use when comparing performances over time.

We trust you had a great day.

Every track day requires a team effort. Maserati Club track days are no different. Our thanks to St John Ambulance, Victorian Fire & Rescue Squad, ACE Towing and the Motorcycle Marshalling Team for their attendance and participation. Special thanks in particular are due to the following club members and others who gave up their time to help out as officials and ensure the Annual Spring Track was a safe and successful event. We hope you achieved your objectives.
