Il Tridente: Located in Bologna's Piazza del Nettuno. It is this distinctively shaped trident head that inspired its adoption as the symbol for Officine Alfieri Maserati SpA. The red and blue of the Maserati badge are traditional Bologna Colours

A Note concerning your Lap Times

Thank you for attending the club's Grand Prix Track Day and helping to make it a safe and enjoyable day. Conditions at Sandown were just about perfect for motor sport all day. Quite overcast early, but it was a warm morning which became warmer by mid-day with more scattered cloud in the afternoon. It was an unusual event this year with quite a few mechanical failures which required recovery time during the course of the day. The engine failure in Escort RS2000 perhaps helped Nick Ellis a little as it happened at Sandown on not at the Prologue in Georgetown for Targa Tasmania. No doubt will get a new engine and be on the 'Start-Line' as required. With the temperature in the 20's and a dry track all day it was a great day for motor sport. We trust you enjoyed your experience at Sandown and achieved your objectives for the day.

The Club uses a computer based timing system to record the times of drivers at its track days. Chief Timekeeper for the day was Greg Aimers, ably assisted by Jason Carrington. Not all times were recorded in the Morning Session.

The club timing system although computer based, requires us to identify each car by its pre-assigned club competition number. Errors, where they occur, usually relate to the *visibility* of the club competition number. This system ensures that the vehicle numbers used are consistently presented and easy to interpret. However, for this to work the timing crew must be able to identify the club competition number of a given vehicle as it crosses (at high speed) in front of them at the timing tower - the timekeeper ignores any other number on the car. Traffic, may sometimes obscure a vehicle. Not helping the situation is poor placement of the club competition number on the car. Combinations of these factors can lead to:

- a vehicle being missed on one lap, but being picked up on another lap. This may lead to two laps being reported as if it were one lap.
- a vehicle whose number is obscured may be mistaken for another similar vehicle on the track at the same time. Where this is identified we discard the inappropriate time and record 'nt' or not timed in the times attached.

As in all such systems some error is inevitable. However an inspection of the results shows that of the 1507 laps recorded, there were few, if any, errors on Sunday. **Incidentally, if you forgot to return your number after the event, we would be very appreciative if you returned it by mail.**

A copy of this booklet, as well as others containing the results from similar events the Club has run since 1995, can be downloaded from the "Quick Access" page on the Club's website at www.maserati.org.au. Some members find this of use when comparing performances over time.

We trust you had a great day.
