at

Sandown
International
Motor Raceway

Sunday, March 14, 1999

Recorded lap times
for Practice and the
Timed Sessions

Il Tridente: Located in Bologna's Piazza del Nettuno. It is this distinctively shaped trident head that inspired its adoption as the symbol for Officine Alfieri Maserati SpA. The red and blue of the Maserati badge are traditional Bologna Colours

**Maserati Club
of Australia**
Incorporated

A Note concerning your Lap Times

The Club uses a computer based timing system to record the times of drivers at its track days. Whilst part of the system is computerised and usually requires a time-keeping crew of two, to physically capture individual times.

For this event the Chief Timekeeper was Greg Aimers. Greg undertook the timing with the assistance of his son Simon and apart from a brief period in the morning familiarisation session (when Greg did a few laps himself in his Nissan 200 SX) they provided coverage of the event for the entire day.

The Club has continuously sought to improve its capacity to capture times over recent years, first with the acquisition of the "MOTORSPORT Timing System" system from Ken Douglas and secondly with the introduction of Club car numbers, to improve the ease of identification of the number of the vehicle being timed. (*Did you return your car number?*)

The timing system, requires us to identify a car by number only and enter the number of the car to match a specific time. Errors, where they occur, usually relate to the *visibility* of the car number. The timing crew must be able to identify the number on a given vehicle as it crosses (at high speed) in front of them at the timing tower. Traffic, may sometimes obscure a vehicle. Not helping the situation is poor placement of the number on the car. Combinations of these factors can lead to:

- # a vehicle being missed on one lap, but being picked up on another lap. This may lead to two laps or sometimes more being reported as if it were one lap.
- # a vehicle whose number is obscured may be mistaken for another similar vehicle on the track at the same time. This will lead us to discard the inappropriate time and record 'nt' or not timed in the times attached..

Both of these errors occurred on the day. However, their occurrence is quite small, when one considers that 842 laps were timed.

The results as provided, are confidential and are for your personal use only. They are NOT intended for publication or dissemination to any third party whatsoever. The summary of times that will appear in the next issue of the club newsletter "The President's Notebook" however, can be used in any manner you may think fit.

Finally, thank you for your patience on the day! The late arrival of the ambulance meant that we lost more than 90 minutes of track time. As a result the usual number of timed laps was well below the 1,111 recorded at the Annual Spring Track Day last October.

Remember we would like your support for the inter-club challenge (JALM) at Calder on April 11, 1999 and John Hardy has planned a great lunch run for Sunday, March 28, 1999. Details on both events are enclosed.

Jim Reark
Event Director
Monday, March 14, 1999
