## A Note concerning your Lap Times

Thank you for attending the club's Annual Spring Track Day held as usual at Sandown International Motor Raceway. As has been the case for the past few years the weather was on our side to give us perfect conditions for this annual event. We hope you enjoyed the experience and achieved your objectives for the day.

The Club uses a computer based timing system to record the times of drivers at its track days. For this event the Chief Timekeeper was Greg Aimers who undertook the timing entirely on his own on this occasion. Apart from a few brief intervals in the Morning Session Greg was captive in the timing tower for most of the day doing his best to get you these times.

The Club timing system, requires us to identify each car by its pre-assigned competition number and then enter that number to match the specific time we have recorded. Errors, where they occur, usually relate to the *visibility* of the car number. It is for this reason the Club introduced, some time ago now, the competition number system you were provided with on the day. For this to work the timing crew must be able to identify the number of a given vehicle as it crosses (at high speed) in front of them at the timing tower. Traffic, may sometimes obscure a vehicle. Not helping the situation is poor placement of the number on the car. Combinations of these factors can lead to:

- # a vehicle being missed on one lap, but being picked up on another lap. This may lead to two laps or sometimes more being reported as if it were one lap.
- # a vehicle whose number is obscured may be mistaken for another similar vehicle on the track at the same time. This will lead us to discard the inappropriate time and record 'nt' or not timed in the times attached.

As in all such systems some error is inevitable. However an inspection of the results shows that of the 937 laps recorded, there were few errors on Sunday. Some problems were encountered during the day with the competition numbers provided to competitors. For competitors with closed vehicles, the competition number should be affixed **INSIDE** the car, not **OUTSIDE** to limit the chance of it coming off. Incidentally, if you forgot to return your number after the event, we would be very appreciative if you returned it by mail.

**The results as provided in this document, are confidential and are for your personal use only. They are NOT intended for publication or dissemination to any third party whatsoever.** However, the summary of times that will appear in the next issue of the club newsletter "The President's Notebook" can be used in any manner you may think fit. Drivers who are not members of the club will receive a complimentary copy of the next club newsletter containing the summary times. A copy of this booklet as well as others containing the results from similar events the Club has run in recent years can be downloaded from the Club's website at [www.maserati.org.au](http://www.maserati.org.au).

We trust you had a great day.
